Academic Affairs*

The tables included in this manual include all quarter and semester courses approved at the time of publication. The list of quarter courses is final, since no new quarter courses will be approved prior to the conversion to semesters. There may, however, be additional semester courses approved between the time of publication and August 1993, when the semester program goes into effect.

Every effort has been made to establish the accuracy of the information. Any errors or omissions should be reported to Calendar Conversion, Office of the Provost, SIUE. This publication is for informational purposes only, and does not constitute a contract. Revisions may be made without advance notice.

 ACADEMIC ADVISEMENT	 215

SEMESTER CONVERSION: What, When and Why

WHAT IS SEMESTER CONVERSION?

Southern Illinois University at Edwardsville is currently on the quarter calendar. The academic year consists of three terms beginning in late September and ending in early June with a ten week summer session which begins in late June. SIUE is now in the process of changing to the semester calendar, which is common to most colleges and universities around the United States. On the semester calendar, the academic year will consist of two terms rather than three quarters. The first term will begin in late August and end in mid-December. The second term will begin in mid-January and end in May. There will also be a ten week summer session beginning in late May.

WHEN ARE WE CONVERTING?

The semester calendar will begin Fall 1993. The first classes on the semester plan will begin on August 23, 1993.

WHY ARE WE CONVERTING?

The decision to convert to a semester academic calendar which SIUE made in Fall, 1990, was based upon many factors. SIUE is the only remaining public university in the state of Illinois on the quarter calendar. Students transferring to SIUE from community colleges or other colleges or universities on the semester calendar experience difficulty converting courses and hours into a quarter format. At present, SIUE students are placed at a competitive disadvantage in seeking summer employment and full time jobs since students from other institutions are available for employment a month before SIUE students finish the Spring Quarter. Further, the pace of a semester calendar is considered by many to be more suitable for learning. Students have 15 weeks, rather than ten, to comprehend and discuss information, produce written work, and work on projects. Additionally, registration occurs only twice a year rather than three times (excluding summer), which

allows more time for advisers to work with students. The conversion is also likely to result in a reduction of administrative costs for units within the University. Perhaps the greatest advantage is that faculty have more time to assist students.

PLANNING FOR SEMESTERS

The University has been working on the conversion process since Fall, 1990. Many University policies have been modified; academic programs and courses have been adapted to the semester calendar, and publications have been prepared.

Many people at the University have worked very hard to ensure that problems will be minimized, but the success of these efforts will depend largely upon how much you understand about how conversion to semesters will affect your academic program at SIUE. You must think ahead and plan for the changes that will occur. This manual has been prepared to help you in the transition from quarters to semesters. Read it carefully and ask questions when you don't understand the conversion process.

The manual includes three worksheets. The first two worksheets relate to General Education and the third is a two-year academic plan for 1992-93 and 1993-94. Use the manual to complete the worksheets before you discuss the transition with your adviser. Advisement will be a critical component of the transition. In order for you to make a smooth transition, it is important that you are prepared prior to meeting with an adviser. A complete list of all advisers is included in the manual beginning on page 215. Remember that it is important for you to work closely with your adviser to ensure a smooth transition.

WHAT TO DO IF YOU HAVE A PROBLEM BECAUSE OF CONVERSION

While change is unsettling, the University is committed to the principle that no student will be harmed by the process. If you think that you have been adversely affected by the conversion to semesters, a system for appeal has been developed.

If you have not yet applied for your major and you encounter difficulty, contact your adviser in the Office of Academic Counseling and Advising. Your adviser will explain the procedure to you and give you the appropriate appeal forms to complete. If you have completed your application for a major and are advised by a faculty member or adviser in a specific school or department, contact your adviser in the school or department to begin the process.

If you have questions about the appeal process and aren't sure where to go, contact Sid Denny or Connie Stamper-Carr at 692-2576.

SEMESTER SCHEDULING

The first semester at SIUE will begin Fall, 1993. The schedule for the 1993-94 academic year will be:

FALL SEMESTER 1993

August 23	Classes Begin
September 6	Labor Day
October 9-12	Fall Break
November 24-28	Thanksgiving
December 10	Classes End
December 13	Exams Begin

SPRING SEMESTER 1994

January 10	Classes Begin
January 17	M.L.King Day
March 7-13	Spring Break
April 29	Classes End
May 2	Exams Begin

SUMMER SESSION 1994

May 23	Classes Begin
May 30	Memorial Day
July 4	Independence Day
July 29	Classes End
August 1	Exams Begin

CLASS SCHEDULING

WEEKDAY CLASS SCHEDULES

Most semester courses will carry three hours of credit, although some courses will carry one, two, four or five semester hours of credit. A three semester hour class will meet for three class hours per week for 15 weeks plus one week for final exams during regular semesters. All weekday classes will begin on the half-hour during both regular and summer sessions. Labs will generally meet for two hours per week for each semester hour of credit. Three credit hour classes will generally meet for one class hour on M-W-F or for 1.5 class hours on T-R. Some three hour classes will be scheduled in different formats, which will enable students to develop schedules to fit their needs. Since Summer session is only a ten-week session, classes will meet more frequently and/or for longer periods of time.

EVENING CLASS SCHEDULES

Under the quarter calendar, a part-time student taking two courses each term during Fall, Winter and Spring quarters could complete an undergraduate degree in eight years. It is important to remember that under a semester system a part-time student taking two courses each term during Fall and Spring semesters would need more than 10 years to complete the same degree. Since the normal load for full-time students is five courses per semester or ten courses per year, a part-time student would need to take five courses per year in order to graduate in eight years. Under the semester calendar it will be possible for a part-time student to take as many as three courses in any semester. Students will be able to take three courses some semesters and two courses other semesters in order to graduate in the eight year period. Taking courses during the summer would accelerate progress toward the degree.

To ensure that students will have the opportunity to take at least three classes per semester in the evening, classes will begin at 4:30, 5:30, 6:00, 7:00, 7:30, 8:30 and 9:00 p.m.. These starting times will allow a student to take a course meeting once a week and a course meeting more than once a week on the same evening. It will, therefore, be possible

to take three courses in one semester by building a schedule that allows a student to take two courses meeting once weekly on Monday and Wednesday and a third course meeting twice weekly on Monday and Wednesday. Other combinations leading to a three course per semester load are also possible. In order to ensure that evening students have adequate access to General Education classes, evening General Education courses will be scheduled at 6:00, 7:30 or 9:00. Daytime General Education classes may also be scheduled at 4:30 or 5:30 and will continue to be available to evening students if they can make provisions to be on campus by class time.

University policy recommends that students who are employed full-time should enroll for no more than six credit hours per semester. The policy does not prohibit enrollment for more than six credit hours per semester, since University officers recognize that students may need to take more hours in some semesters. Students should discuss this option with their adviser, taking into account their commitments outside the classroom and their cumulative grade point average.

WEEKEND CLASS SCHEDULES

Weekend classes will generally meet from 9:00 a.m. until 12:20 p.m., and from 1:00 p.m. until 4:20 p.m. This schedule will permit weekend classes to meet for only 13 of the 16 weeks during the semester. The 13 week schedule will allow students to be free for holiday weekends. Additionally, this will allow a longer break between final exams and the first week of weekend classes in the next term. Some special format classes may also be scheduled on weekends. For example, a course may be offered on six Saturdays from 8:30 a.m. until 4:30 p.m. The schedule for weekend classes for the 1993-94 academic year follows:

FALL SEMESTER 1993

August 23-December 12
No weekend classes September 4-5, October 9-10,
November 27-28. Final exams December 11-12.

SPRING SEMESTER 1994

January 15-May 1
No weekend classes February 12-13, March 12-13,
April 2-3. Final exams April 30-May 1

PROGRAM CHANGES

Because a semester is 15 weeks in length, the dates for program changes will change accordingly. The following schedule will apply for courses scheduled on a 15 week format.

Weeks 1-2: Students may drop a class without permission of the instructor and have no entry on the transcript.

Week 3: Last day to change audit status (graduate students).

Weeks 3-10: Students may drop a class without permission of the instructor. Grade of W is assigned automatically.

End of Week 6: Last day to change Audit status. (undergraduate students)

Thursday of Week 7: Last day to file Suspension Appeal Application.

End of Week 8: Last day to change Pass/No Credit status.

Weeks 11-13: Students may drop a class after approval of the instructor and adviser, but a grade of WP or WE must be assigned by the instructor; WE will be computed as an E for GPA.

After Week 13: No class may be dropped; grade other than W, WP or WE must be assigned by instructor.

End of Week 13: Last day to withdraw from school.

CHANGES IN ACADEMIC REQUIREMENTS

GRADUATION REQUIREMENTS

UNDERGRADUATE STUDENTS

The minimum number of credit hours required to earn a Baccalaureate degree under the semester calendar is 124. Actual credit hour requirements for many programs may be higher.

Of the required 124 hours, at least 60 must have been earned at a four-year institution and at least 30 must be earned at SIUE.

GRADUATE STUDENTS

The minimum number of hours required for the Master's degree is 30. A Specialist's degree requires 30 hours beyond the Master's degree. Information regarding specific programs is available from academic departments and is also available in the 1993-94 Graduate Catalog, which will be published in October 1992.

CLASS STANDING

Credit hours required to attain class standings are as follows:

Freshman standing	0 to 29 hours
Sophomore standing	30 to 59 hours
Junior standing	60 to 89 hours
Senior standing	90 semester hours

FULL-TIME ENROLLMENT AND ACADEMIC OVERLOAD

UNDERGRADUATE STUDENTS

In order to graduate with 124 semester hours of credit in four years (eight semesters), students will need to average 15.5 hours per semester. Maximum credit hour load per semester without special overload permission of an adviser is 19 semester hours. Undergraduate students with a 3.25 grade point average or above for the preceding term may

be permitted to take as many as 21 hours with special overload permission of an adviser.

Undergraduate students registered for at least 12 semester hours per term will be considered full time for tuition and financial aid purposes. (Remember that in order to graduate in 4 years or 8 semesters students will need to average 15.5 hours per semester) Students attending the University under scholarships, loans, or other types of financial assistance requiring full-time enrollment should check to make certain that they are meeting the requirements of their specific scholarship, loan or other form of financial aid.

GRADUATE STUDENTS

During the academic year, full-time enrollment for graduate students consists of nine or more credits in graduate level courses. The maximum course load is 15 credits. Students holding graduate assistantships, veterans benefits, fellowships, or scholarships should check to make certain that they are meeting the requirements of their specific programs.

MEETING GENERAL EDUCATION REQUIREMENTS

FIRST TIME STUDENTS ADMITTED TO SIUE BEFORE SUMMER 1986 AND CERTAIN TRANSFER STUDENTS ADMITTED TO SIUE BEFORE SUMMER 1989

Current University policy states that any student admitted to the University prior to June, 1986, or any transfer student who had completed 24 quarter hours at an accredited two- or four-year institution before June, 1986, has the option of completing General Education requirements under the provisions of the General Studies Program in effect prior to the summer of 1986. *The option of satisfying General Education requirements using any pre-June 1986 program will be withdrawn beginning Fall, 1993.* Students who chose to complete any previous General Education program and who have not completed that program by Fall 1993 will be required to meet the provisions of either the General Education program which was adopted in June 1986 or the General Education

program adopted for the conversion to semesters in Fall, 1993. Students admitted to the University under the General Studies program, should consult an adviser as soon as possible to determine what courses are needed to complete their General Studies program and arrange to take those courses before Fall, 1993, if possible.

FIRST TIME STUDENTS ADMITTED TO SIUE BEGINNING SUMMER 1986 AND CERTAIN TRANSFER STUDENTS ADMITTED THROUGH SPRING QUARTER 1989

Continuing or re-entry students who have completed 32 or more quarter hours of credit toward graduation prior to Fall, 1993, will have the option of completing either the General Education program adopted in June, 1986, or the General Education program effective Fall, 1993. Students who have completed more than 32 quarter hours toward a degree, should use the information on pages six through nine to complete the two General Education Worksheets on pages 10 and 11. When you have completed both worksheets, determine your status with regard to completion of the General Education requirements for each program. *Be sure to consult the lists of approved General Education courses before assuming that a particular course will fulfill a requirement. Only certain courses have been approved for General Education.* Choose the program which best meets your needs. If you have completed fewer than 32 quarter hours toward your degree, you will be required to complete the General Education program that becomes effective Fall, 1993. Complete the semester, 1993, General Education Worksheet on page 11 to determine what course or courses you will need to complete the program.

Transfer students receive a Transfer credit Evaluation at the time they are admitted to SIUE. This evaluation indicates whether the student was admitted to General Studies or General Education. A copy of the transfer credit evaluation should be included in each transfer student's advisement file. Students should check with their advisers if they are unsure about their general requirements program.

COMPLETING YOUR DEGREE

COMPLETING THE UNDERGRADUATE MAJOR

Undergraduate students who have completed fewer

than 32 quarter hours of credit toward graduation prior to Fall, 1993, must complete the major requirements that become effective in Fall, 1993 (*Courses using the AD prefix do not count toward graduation*). Students who have completed 32 or more quarter hours of credit toward graduation prior to Fall, 1993 and who have been accepted into a major program will have the option of completing either the major requirements in effect prior to Fall 1993, or the major requirements that become effective Fall 1993 or thereafter, provided they graduate by the end of Spring, 1998. If they graduate after Spring, 1998, or if they change their major program at any time after Fall, 1993, they must complete the major requirements that become effective Fall, 1993, or thereafter.

FINISHING THE GRADUATE MAJOR

Graduate students will have the option of completing the requirements of the program in effect when they initially enrolled or completing the program which takes effect Fall, 1993. Students seeking a Master's degree need to remember that they have a six-year period following their initial enrollment in a program to complete their degree. A student who fails to complete the degree within six years may request an extension in writing. Special time limits apply to completion of Specialists and Doctoral programs. See details in the 1993-95 edition of the Graduate Catalog.

THINGS TO REMEMBER

- * If you have completed less than 32 quarter hours prior to Fall 1993 you must complete the 1993 General Education program.
- * If you have completed more than 32 quarter hours before Fall 1993, you may choose either the 1986 or the 1993 General Education programs you wish to complete.
- * If you entered the University under the General Studies program you must complete the program before Fall 1993 or you will be required to complete either the 1986 or 1993 General Education program.
- * When determining if you have completed requirements in General Education the number of required courses you have completed is more important than the number of hours you have completed.

Interdisciplinary Course (3 hours) (junior or senior standing required)

Other Requirements:

Constitution requirement: Take HIST 200 or 201, POLS 112, or HIST 431 or complete a proficiency exam in one of the courses. Any of these courses may also count toward fulfillment of General Education requirements.

Intergroup Relations, International Issues and International Culture requirement: Students are required to take a course in Intergroup Relations and a second course in either International Issues or International Culture. Courses which are taken to fulfill these requirements may also fulfill major, minor, General Education or elective requirements. Courses fulfilling the three requirements are listed below.

1986 GENERAL EDUCATION PROGRAM

The General Education program in place at SIUE from summer 1986 to Fall 1993 required 72-76 quarter hours (48-51 semester hours). The specific requirements (converted to semester hours) include:

<p>SKILLS COURSES (15-17) Hours</p> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>Written Expression (6 Hours) (to be completed by the end of the sophomore year).</p> </div> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>Option A: Oral Communication.....3 Hours Critical Thinking or Statistics or Computer Programming.....3 Hours</p> </div> <div style="border: 1px solid black; padding: 5px;"> <p>Option B: Foreign Language.....8 Hours Critical Thinking or or Statistics or Computer Programming.....3 Hours</p> </div>	<p>INTRODUCTORY COURSES (18 HOURS)</p> <div style="border: 1px solid black; padding: 5px; margin-bottom: 5px;"> <p>Students must take 6 hours (2 courses) in each of the three following areas. Fine Arts and Humanities Natural Sciences and Mathematics Social Sciences</p> </div> <p>ADVANCED COURSES (18 HOURS)</p> <div style="border: 1px solid black; padding: 5px;"> <p>Students must take 6 hours (2 courses) in each of the following areas. (See list below). Fine Arts and Humanities Natural Sciences and Mathematics Social Sciences</p> </div>
<p>INTERDISCIPLINARY STUDIES.....3 Hours</p>	
<p>OTHER REQUIREMENTS Constitution Requirement: All students are required to fulfill a Constitution requirement. Under the provisions of the 1986 program, students must take an approved course or pass the Constitution examination administered by Testing Services. A course taken to fulfill the Constitution requirement may <i>not</i> be used to fulfill another General Education requirement.</p>	
<p>Approved Advanced General Education Courses for the 1986 program:</p>

COMPARISON OF THE 1986 AND 1993 GENERAL EDUCATION PROGRAMS

REQUIREMENTS	1986 PROGRAM	1993 PROGRAM
CONSTITUTION REQUIREMENT	A course taken to fulfill the Constitution requirement may not be used to fulfill other General Education requirements. Students may choose to take an examination or a course to fulfill the requirement. Courses which may be used are Hist 200, 201, 202, 431, and POLS 112. Information concerning the exam is available in the Instructional Services Office in Peck 1404.	A course taken to fulfill the Constitution requirement may be used to fulfill other General Education requirements in the area of Advanced Social Sciences. Courses which fulfill the requirement are Hist. 200, 201, 431, and POLS 112. Students may also take a proficiency exam in any of the courses above to complete the requirement. Students under this program <i>may not</i> take the Constitution examination to fulfill the requirement. If you have already taken the Constitution exam to fulfill the requirement and you choose this program, you will be required to take one of the courses listed above to complete the Constitution requirement since the examination is not acceptable in this program.
LIBERAL ARTS AND SCIENCES REQUIREMENT	Requires a total of 12 courses which includes two Introductory courses and two Advanced courses from each of the three areas (Natural Sciences and Math, Social Sciences, and Humanities and Fine Arts). The Introductory courses in a student's major field cannot count toward fulfillment of the General Education Requirement. Advanced courses in the major field <i>may</i> count toward General Education. Some Advanced courses in the 1986 program were not approved for Advanced credit in the 1993 program. If you have completed your Advanced courses check the Advanced course list for 1993 on pages 6-7 before you decide which program to complete.	Requires a total of ten courses from the three areas. Students take only one Introductory course in one area and two Introductory courses in the remaining two areas. They may also take only one Advanced course in one area. The area in which only one Advanced course is taken may not be the same area in which only one Introductory course was taken. For example, if only one Introductory Social Science course is completed, then the student <i>must</i> take two Advanced Social Science courses and may take only one Advanced course in one of the other two areas and two Advanced courses in the third area. If you have not completed all your Introductory and Advanced courses in General Education and all other requirements are complete, the Fall 1993 program may better meet your needs.
INTERGROUP RELATIONS AND INTERNATIONAL ISSUES OR INTERNATIONAL CULTURE REQUIREMENT	Not required.	Requires one course in Intergroup Relations and one course dealing with either International Issues or International Culture. A list of courses which satisfy these requirements can be found on pages 6 and 7. Courses used to satisfy this requirement may also be used to fulfill other General Education requirements, major requirements or minor requirements. For example, Culture of Black Americans (ANTH 311) will fulfill both the Advanced Social Science requirement and the Intergroup Relations requirement. Use your transcript to check which courses you have taken to meet the two requirements. If the courses you have already taken <i>do not</i> meet the requirements, then you will be required to take additional classes if you choose to complete the Fall 1993 program.

CONVERTING QUARTER HOURS TO SEMESTER HOURS

If you plan to graduate before Fall, 1993, the conversion will not affect you. If you graduate after Fall, 1993, and are enrolled in classes during 1993, a specially produced copy of your transcript will be distributed to you along with the voucher which can be exchanged for the Conversion Manual. The total number of hours you have earned on the quarter system may be converted to semester hours by multiplying the total number of quarter hours you have earned by .667. The following table lists quarter-to-semester conversions from one to 200 hours. The conversion of hours from the quarter to semester calendar is important *only* for meeting the total hours required for graduation. *For meeting specific requirements, such as General Education requirements, it is not necessary to convert quarter hours to semester hours. In the case of course specific requirements the fact that you have taken a course to fulfill the requirement is sufficient even though, when the quarter hours are converted to semester hours, you may appear to be some fraction of a credit hour short of meeting the requirement.* For example, five General Education courses taken in the quarter system, each of which carries four quarter hours of credit, convert to 13.34 semester hours. In the semester system you are required to take five Introductory courses which will yield 15 semester hours. In this example you appear to be 1.66 semester hours short of completing the requirement. Since you have taken the proper number of courses the University will consider that you have completed the requirement despite the seeming lack of hours. **Do not** convert each course to semester hours. Convert only the total hours you have completed in order to determine the number of semester hours needed to complete the 124 hour semester graduation requirement.

PROBLEMS TO AVOID

While conversion may present different problems for different students, some potential problems will be common to many students. Potential problems including sequence courses, repeating courses, and the reuse of course numbers are discussed below.

SEQUENCE COURSES

Please keep in mind when planning your future schedule that those courses which were three-part sequences in the quarter system will normally become two-part sequences with the conversion to semesters. For example, in the Foreign Language Department, SPAN 101, 102 and 103 will become SPAN 101 and 102. The semester course SPAN 101 will include all material taught in the quarter course SPAN 101 plus the first half of what was taught in the quarter course SPAN 102. The semester course SPAN 102 will include the material taught in the second half of the quarter course SPAN 102 plus the material taught in the quarter course SPAN 103. The sequences which you begin during the 1992-93 academic year should be completed before the change to semesters in order to avoid losing credit or repeating course content. *If you cannot complete a sequence before Fall 1993, it may be best to wait to begin the sequence after the University converts to semesters Fall, 1993.* Discuss with your adviser the sequence courses you need and when you should take them. Check the General Education Equivalency list included in this manual for the General Education courses taught in sequences and affected by the change to semesters. Information regarding courses not approved for General Education credit is available from the specific departments as well as the University Equivalency list included in this manual.

REUSED COURSE NUMBERS

Many quarter courses have been dropped or have been combined with other courses to create semester courses. *In some cases the numbers of discontinued quarter courses have been reused for semester courses. Thus, in some cases a quarter course and a semester course with the same number may not be the same course.* In planning your academic schedule do

not assume that courses with the same number will always be equivalent. Check the equivalencies list in this manual carefully. Courses with reused numbers (i.e. courses with the same number but different content) are identified in the list by double underlining.

REPEATING COURSES

Students who wish to repeat a quarter course to raise the grade point average or fulfill a requirement should do so before the conversion to semesters Fall, 1993. This recommendation is based upon 4 factors. First, courses will be dropped from the curriculum as a result of the conversion to semesters and, therefore, it will not be possible for students to repeat those courses. Second, in cases where an equivalent course exists, the course will not be an exact duplicate of the quarter course. Courses which were taught in the ten week quarter calendar will be re-created for the 15 week semester calendar. Courses may, therefore, include different material and different requirements. A course repeated under the semester calendar could be very different from the same course under the quarter calendar. Third, repeating a course on the semester calendar means committing 15 weeks for the repeated course, rather than the ten week commitment under the quarter calendar. Spending one-half an academic year on a repeat course does not lend itself to rapid progress toward a degree. *Fourth, the repeat course policy has been changed.* Previously, only the most recent grade in a course was calculated in the GPA. Effective Fall, 1993, students *may replace a grade* through repeating the course only one time. Subsequent repeats will not replace the grade but will be calculated in the GPA along with the grade earned in the first repeat.

The new repeat course policy will be implemented Fall, 1993. In order to be as fair as possible, the implementation guidelines will allow one more repeat of a course for *replacement* of a course grade beginning Fall, 1993. You will be able to repeat any course *taken prior to Fall, 1993*, one more time for replacement of grade regardless of the number of previous repeats. This may be done in any semester prior to graduation. Since the comparison of the new repeat policy to the old repeat policy can be confusing, the table below has been prepared to help explain the effects of both policies.

COMPARISON OF PRE 1993 AND POST 1993 REPEAT POLICY

NUMBER OF ATTEMPTS	GRADE	RESULTING ACTION PRE-FALL 1993	RESULTING ACTION POST-FALL 1993
First Enrollment	E	E is recorded on transcript and calculated in cumulative GPA.	Same
Repeat 1	D	D and E appear on transcript. Only D is calculated in cumulative GPA.	Same
Repeat 2	C	Transcript shows E,D and C but only the C is calculated in GPA.	Transcript shows E,D and C. D and C are included in cumulative GPA.
Repeat 3	B	Transcript shows E,D,C and B but only the B is calculated in the GPA.	Transcripts shows E,D,C and B. The D,C and B are calculated in GPA.

THE TWO YEAR ACADEMIC PLAN

On the following page is a Quarter/Semester Academic Plan Worksheet for Academic Years 1992-93, and 1993-94. Using the University Equivalencies list, fill in the courses which you think you will need to take to complete your General Education requirements as well as the requirements you think you will need to take to complete your major and minor. The quarters or semesters in which the courses will be offered are indicated below the course entry in the list. Enter the General Education courses from the earlier worksheets on the Academic Plan Worksheet and complete the major and minor courses you will need. Discuss the completed plan with an adviser and make adjustments. Remember the projected course offerings are tentative, and you will need to check each term to make certain that the courses will be offered as indicated in the equivalencies list.

USING THE EQUIVALENCY LISTS

There are two equivalency lists included in this manual. The first, beginning on page 21, is provided so that you can find equivalencies for approved General Education courses. The second list shows equivalencies for all courses, undergraduate and graduate, offered at SIUE.

The General Education Equivalency List displays approved General Education courses and their equivalencies beginning with the pre-1962 General Studies program. As discussed above and on pages 6-11, you have the opportunity to complete the pre-1986 General Studies program which was in effect at the time you enrolled at the University. You must complete the program which applies to you *before*

Fall Semester, 1993. If you need to complete one of these pre-1986 programs, use the General Education Equivalencies list to check which courses you need during the year preceding the conversion to semesters (Academic Year 92-93).

If you entered the University between summer 1986 and summer 1993, you have a choice of finishing either the 1986 General Education program or the General Education program which will begin in Fall, 1993. You may also use the General Education Equivalency list to determine which courses you will need in order to complete either of these programs. Directions for using the General Education Equivalency list are provided on page 16. The University Equivalency List shows all courses, including General Education courses. This list shows how departmental courses have been converted to accommodate the change to semesters. All quarter courses are listed alphabetically by subject and number sequence in the left-hand column, and the equivalent semester course is listed in the right-hand column. Projected course offerings for the 1992-93, 1993-94 and 1994-95 academic years are indicated under each course entry.

Many course names and numbers have changed. Do not assume that a course having a particular number under the quarter system will have the same number in the semester format. When using the equivalency list, use both the course number and title to determine equivalencies. If you have a question about a particular course equivalency, contact the department which offers the course. More detailed instructions for using the University Equivalency List can be found on page 50 of this manual.

USING THE GENERAL EDUCATION EQUIVALENCY LIST

Beginning on page 18 is the General Education Equivalency list. The list provides information regarding all General Studies or General Education courses offered before Fall, 1993, and shows the Fall, 1993, equivalent courses. The list is intended *only* to show the conversion of pre-1993 courses. Consequently, the list *does not* include all Advanced General Education courses approved for the Fall, 1993, program. A complete list of approved courses for the Fall, 1993, General Education program can be found on page seven of this manual.

Courses included on the General Education Equivalency list are divided into five groups: Skills, Fine Arts and Humanities, Natural Science and Mathematics, Social Sciences and Interdisciplinary Studies. Within each of these groups, courses are divided into columns representing the General Studies and General Education programs from 1962 through the conversion to semesters Fall, 1993.

The list is designed to help you track the history of any course which carries or did carry General Studies or General Education credit through sequential number changes. In *Example 1* below, English Composition started as GSD 101 prior to Fall, 1962. In Fall, 1962, GSD 101 became GSD 151. In Fall, 1966, the General Studies program was revised and the course designation was changed to GSD 101a. In 1974 the General Studies program was again revised and the course became GSK 101. In summer, 1986, the General Studies program became General Education and the course became ENG 101. Beginning in Fall, 1993, the course is part of the semester General Education program and retains the designation ENG 101. Please note that in the period from 1962 to 1993 the course, which originally carried three quarter hours credit, was changed to four quarter hours credit in 1966. The course will carry three semester hours credit on the semester system.

EXAMPLE 1

COURSE TITLE	GENERAL EDUCATION BEGINNING FALL 1993	GENERAL EDUCATION SUMMER 1986- SUMMER 1993	GENERAL STUDIES FALL 1974- SPRING 1986	GENERAL STUDIES FALL 1966- SUMMER 1974	GENERAL STUDIES FALL 1962- SUMMER 1966	DEPARTMENTAL COURSES PRE-FALL 1962
ENGLISH COMP	ENG 101-3	ENG 101-4	GSK 101-4	GSD 101A-4	GSD 151-3	GSD 101-3

In some cases, courses which were offered during the time of one General Studies program were discontinued for subsequent General Education requirements. If this is the case, the course is shown as having No Equivalent Course (NEC) for subsequent programs. *Example 2* demonstrates this situation with regard to the course Modern Art A: 19th Century. In this example, Modern Art A: 19th Century was created for the General Studies modifications which took effect Fall, 1966. In 1966 the course carried the designation GSC 340 for three quarter hours credit. In the General Studies revision of 1974 the course designation changed to GHA 310 with four quarter hours credit. With the implementation of the General Education Program in summer, 1986, the course was dropped from the General Education program.

EXAMPLE 2

COURSE TITLE	GENERAL EDUCATION BEGINNING FALL 1993	GENERAL EDUCATION SUMMER 1986- SUMMER 1993	GENERAL STUDIES FALL 1974- SPRING 1986	GENERAL STUDIES FALL 1966- SUMMER 1974	GENERAL STUDIES FALL 1962- SUMMER 1966	DEPARTMENTAL COURSES PRE-FALL 1962
MOD ART A:		NEC	GHA 310-4	GSC 340-3		

In other cases, courses were collapsed from three quarter sequences into two semester sequences. This collapsing of courses can be seen in *Example 3* below. The collapsed courses are shown by shading which indicates how courses were combined. In most cases, it is the middle course of a three quarter sequence which is no longer offered on the semester calendar. When this is the case, the initials NEC which stand for "no equivalent course" are listed in the appropriate column. In *Example 3* below, the three quarter French sequence has been collapsed into a two semester French sequence.

This example also shows FR 101-4 in the General Studies Fall, 1974 through Spring, 1986 column in parentheses. Courses listed in parentheses are departmental courses which did not count toward General Education at the time they were offered.

USING THE UNIVERSITY EQUIVALENCY LIST

On the following pages you will find quarter to semester equivalencies for all University courses. On the left half of each page information relevant to the quarter courses is listed. On the right half of each page the semester equivalencies are listed for each course.

Most University courses have retained the same course designators (prefixes), course numbers and course titles. However, in most cases, the credit hours have changed reflecting the change from quarter hours to semester hours. These changes are reflected in Example 1 below.

EXAMPLE 1

QUARTER				SEMESTER			
COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS	COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS
ART	111	INTRODUCTION TO ART	4	ART	111	INTRODUCTION TO ART	3

In the example above Art 111, Introduction to Art carries four quarter hours of credit. In the semester calendar, the course will retain the same designator (ART), same number (111) and same title. However, under the semester calendar the course will carry three hours of credit.

In some cases the course designator will change. Such changes in designator are rare but when they do occur they will be shown as in Example 2 below.

EXAMPLE 2

QUARTER				SEMESTER			
COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS	COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS
ESCI	201	PHYSICAL GEOLOGY	4	GEOG	310	PHYSICAL GEOLOGY	3

In this case the quarter course bears the course prefix, or designator, ESCI (Earth Science) and is numbered 201. In the semester system the course becomes GEOG (Geography) 310. Also please note that while the course title remains the same, the credit hours change from four credits to three credits.

Frequently, you will find that several quarter courses have been combined into one semester course. The example below indicates that two quarter courses have been combined into a single semester course

EXAMPLE 3

QUARTER				SEMESTER			
COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS	COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS
ANTH	330	Archaeology of No Amer	4	ANTH	331	World Prehistory	3
ANTH	319	Growth of Old World Civ	4				

Note that in this case, two four credit quarter courses have been combined into a single three credit semester course. The course includes the same general content but the combination of 20 weeks of material (2 ten week quarter courses) into a single 15 week semester course means that the depth of coverage will be somewhat reduced and the credit for the course reduced. Also note that these courses have a line above the first entry and below the last entry and that the information is shaded. When you see an entry in the equivalency list which is shaded and delimited by lines, it will mean that some combination of courses has taken place.

Very frequently three quarter sequence courses have been merged to form two semester courses. In these cases, the amount of material for the entire sequence will remain the same but the amount of content included in the individual courses has changed. Example 4 below indicates a three quarter sequence of courses recombined into a two semester sequence.

EXAMPLE 4

QUARTER				SEMESTER			
COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS	COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS
ACCT	301	INTER ACCT I	4	ACCT	301	INTERMEDIATE ACCT I	3
ACCT	302	INTER ACCT II	4				
ACCT	303	INTER ACCT III	4	ACCT	302	INTERMEDIATE ACCT II	3

Again, note that since quarter courses have been combined to create semester courses, the entry

is delimited by lines above and below the courses and that the information within the lines has been shaded.

As indicated earlier in the section discussing problems which you will wish to avoid, some quarter course numbers have been reused for semester courses with very different content. Although these courses will have the same numbers, **they are not the same courses**. It will be very important that you recognize this fact. In order to alert students and advisers to these courses, such course numbers have been double underlined. See Example 5 below for an illustration of such a situation.

EXAMPLE 5

QUARTER				SEMESTER			
COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS	COURSE DSGNTR	NUMBER	TITLE	CREDIT HOURS
HIST	308	HISTORY OF ILLINOIS	4	<u>HIST</u>	<u>308</u>	MEDIVAL HISTORY	3

Remember that it is not sufficient to check only the course numbers on the equivalency lists. Please make certain that courses with the same quarter and semester number are, in fact, the same courses.

If you have not yet applied for a major, make an appointment with an adviser in the Office of Academic Counseling and Advising, Peck 1315. If you have applied for a major, make an appointment to see the adviser assigned to you in your major department. Following is a list of all advisers in each of the units/departments in the University.

OFFICE OF ACADEMIC COUNSELING AND ADVISING, PECK 1315, 692-3701

Terrell Martin, Director.

Advisement for undecided, undeclared, and non degree students. Advisers are: Jackie Burnett, Jane Dabbs (Disabled Student Services), Jane Denny, David Emery, Joyce Emery, John Garrett, Jesse Harris, Jennifer A. Hodgson, Judy Murashige, Earleen Patterson, Ted Woodbury, and George Woods

ACADEMIC ADVISING FOR STUDENT ATHLETES

Nancy Parker, Vadalabene 1036, 692-2738

SCHOOL OF BUSINESS

BUSINESS

Irene Pendleton, Kay Rogers, Lamar Thomas, Building II 3301, 692-3840

ECONOMICS

Stanford Levin, Building III 3132, 692-2542
Initial contact for Economics and Business Economics majors.

SCHOOL OF EDUCATION

EARLY CHILDHOOD AND ELEMENTARY EDUCATION

Barbara Havis, Elecive Mellott, Building II 1110, 692-3940

HEALTH EDUCATION

Malcolm Goldsmith, Vadalabene 1014, 692-3252

PHYSICAL EDUCATION

Ellen Sappington, Vadalabene 1008, 692-3028 All faculty are assigned advising in their areas.

PSYCHOLOGY

Nicholas Reuterman, Building III 0119, 692-2202

RECREATION

Louis Bobka, Vadalabene 1012, 692-3626,

SECONDARY EDUCATION

Lorrie Stricklin, Building II 1117, 692-3940

SPECIAL EDUCATION

Robert Wagner, Building II 1113, 692-2454
Bambi Bethel, Building II 1115, 692-3145

SCHOOL OF ENGINEERING

All Engineering areas: Harlan Bengtson, Science Lab 0335A, 692-2534 (Initial advising session only.)

CIVIL ENGINEERING

Mark Rossow, Science Lab 0321, 692-2533

ELECTRICAL ENGINEERING

Raghupathy Bollini, University Park 2212, 692-2801

INDUSTRIAL ENGINEERING

Jacob Van Roekel, Science Lab 0334, 692-3389

MECHANICAL ENGINEERING

C.L. Chow, Science Lab 0328, 692-3389

CONSTRUCTION

Luke Snell, University Park 2211, 692-2821. All faculty are assigned advising in their areas.

SCHOOL OF FINE ARTS AND COMMUNICATION

ART AND DESIGN

Art (BA)

Paul Dresang, Wagner Building 97, 692-3071
Dennis Ringering, Wagner Building 97, 692-3071
Robin Brown, Graphics Design, Wagner 97, 692-3071

Art (BFA)

Mike Smith, Wagner Building 97, 692-3071
Robin Brown, Graphics Design, Wagner 97, 692-3071

Art (BS)

Joe Weber, Building III 3124, 692-3109

Art History

Pam Decouteau, Building III 3122, 692-3107

Art Transfer Students

Don Davis, Wagner Building 97, 692-3071

MASS COMMUNICATION

JOURNALISM

Bill Ward, Comm. Building 2004, 692-2246

Nora Baker, Comm. Building 2044, 692-2238

TELEVISION AND RADIO

Barbara Regnell, Comm. Building 1041, 692-2236

John Regnell, Comm. Building 1040, 692-2237

John Rider, Comm. Building 1033, 692-2232

Rob Murphy, Comm. Building 1041, 692-3110

MUSIC

Music Majors:

George Mellott, Comm. Building 0155, 692-2014

Joseph Pival, Comm. Building 0156, 692-2022

Transfer Students

George Mellott, Comm. Building 0155, 692-2014

Music Minors

Warren Joseph, Comm. Building 0199, 692-2012

SPEECH COMMUNICATION

Joseph Munshaw, Building III 3118, 692-3084

David Valley, Building III 3112, 692-3090

Speech Education

Diana Enloe, Building III 3108, 692-3090

SPEECH PATHOLOGY AND AUDIOLOGY

Joyce Taylor, Building II 1331, 692-3662

THEATER AND DANCE

Dance

Calvin Jarrell, Comm. Building 2018, 692-2788

Kerry Shaul, Comm. Building 2017, 692-2785

Theater Design/Technical

Otis Sweezy, Comm. Building 1031, 692-3111

Theater Performance

William Grivna, Comm. Building 1031, 692-2791

Lynn Kluth, Comm. Building 1031, 692-2782

Performance

W. Craven Mackie, Comm. Building 1031, 692-2783

FOREIGN STUDENT ADVISING

Toni Liston, Gayle Wolfskill, Peck 1309, 692-3785

Advisement for undecided, undeclared foreign students

SCHOOL OF HUMANITIES

ENGLISH

English BA

All Faculty

English Education (BS)

Allison Funk, Peck 2316, 692-2157

English (MA)

Roberta Bosse, Peck 2225, 692-2063

FOREIGN LANGUAGES

Julian Bueno, Peck 2310, 692-3510

Fred Morrison, Peck 2307, 692-2016

PHILOSOPHY

Edwin Lawrence, Peck 0224, 692-3266

SCHOOL OF NURSING

Undergraduate

Shirley Strohmeier, Building III 2327, 692-3974

BSN Completion Program

Karen Montgomery, Building III 2337, 692-3956

Graduate

Moureen Mattingly, Building III 2125, 692-3930

SCHOOL OF SCIENCES

BIOLOGY

BA and BS

Dennis Kitz, Science 3316, 692-3927

Ecology, Evolution and the Environment

Richard Brugam, Science Lab 3317, 692-2377

Jamie Thomerson, Science Lab 3320, 692-2976

Biology Education

Marian Smith, Science Lab 3329, 692-3005

Biology Genetics

Steven McCommas, Science Lab 3329, 692-3406

Paul Wanda, Science Lab 3318, 692-2336

Biology Medical Sciences

Nancy Parker, Science Lab 3319, 692-2975

Biomedical, Medical Sciences/Medical Technology

Christina Wilson, Science Lab 3309, 692-2509

Medical Technology

Arthur Zahalsky, Science Lab 3313, 692-3467

CHEMISTRY

Chemistry ACS and BA

J.Edmund White, Science Lab 2230, 692-3564

Chemistry Education

Virginia Bryan, Science Lab 2308, 692-3557

Chemistry Medical Science

James Hunsley, Science Lab 2324, 692-3560

Graduate Adviser

Timothy Patrick, Science Lab 2226, 692-3582

COMPUTER SCIENCE

Undergraduates

Jimmie Hattermer, Science Lab 1339, 692-2386

Greg Stephen, Science Lab 1339, 692-2386)

Graduate Students

Jimmie Hattermer, Science Lab 1318, 692-2386

(Fall '92 and Winter '93 only)

Greg Stephen, Science Lab 1319, 692-2386

Trong Wu, Science Lab 1318, 692-2393

(On leave, Fall '92 and Winter '93)

MATHEMATICS AND STATISTICS

Mathematics

Rahim Karimpour, Science Lab 1308, 692-3016

Urszula Ledzewicz-Kowalewska, Science Lab 1317,
692-2361

James L. Parrish, Science Lab 1331, 692-2352
