

**Kaskaskia College  
Associate in Science**

**ENVIRONMENTAL SCIENCE - ENVIRONMENTAL HEALTH**

**(Specializations available in Environmental Management, Toxicology, and Health.)**

Completion of an Associate in Arts or Science degree at Kaskaskia College fulfills SIUE’s general education requirements with the exception of an Interdisciplinary Studies course that all students must take during their junior and senior year at SIUE.

This “Transfer Program Guide” is an *example* of proposed curriculum for students to use while completing their associate’s degree. Reading, writing and math placement could alter the course sequencing and transfer date. Therefore, students should begin sequencing their reading/writing (if applicable) and math & science courses during the first semester, paying close attention to prerequisites. Students have the option of taking summer classes to lessen fall and spring course loads.

It is highly recommended that students meet with a KC advisor each semester. Please see “**Important Student Notes**” located on page two of this transfer guide.

**IMPORTANT STUDENT NOTES:**

The preceding information is provided to assist students in the transfer process. In no way does this document substitute for meeting with an academic advisor. Students are advised to meet on a regular basis with advisors at KC.

Courses taken through dual credit can be applied to required SIUE coursework, please contact KC advisor for more information.

Please consult Kaskaskia College catalog for additional graduation requirements.

Students majoring in Environmental Science have the option of specializing in Environmental Management, Environmental Toxicology, or Environmental Health.

Students have 2 options when pursuing a Bachelor's degree in Environmental Science.

- A Bachelor of Arts degree will require 2 semesters of the same foreign language, which can be taken at either KC or SIUE, in addition to 8 Humanities and/or Fine Arts Courses (some of which will be completed with the Associate in Arts.)
- A Bachelor of Science degree will require completion of 8 courses in life, physical, or social science, in addition to 2 courses with a lab component (some of which will be met with the completion of the Associate in Arts.)

**DECLARATION REQUIREMENTS**

- A cumulative GPA of 2.0 or higher (on a 4.0 scale)
