Campus Box	1066
Department	Nurse Anesthesiology

1 Unfunded URCA Assistant

	This position is **ONLY** open to students who have declared a major in this discipline.	**M**
	This project deals with social justice issues.	💙
	This project deals with sustainability (green) issues.	🍃
X	This project deals with human health and wellness issues.	✚
X	This project deals with community outreach.	✋
	This mentor's project is interdisciplinary in nature.	**I**

Are you willing to work with students from outside of your discipline? If yes, which other disciplines?

Yes

How many hours per week will your student(s) be required to work in this position?
(Minimum is 6 hours per week; typical is 9)

8-9

Will it be possible for your student(s) to earn course credit?

Location of research/creative activities:

AH 2332

Brief description of the nature of the research/creative activity?

Literature Review: Conducting a thorough examination of existing research in a specific field to understand the context, identify gaps in knowledge, and refine research questions.

Analysis and Interpretation: Analyzing collected data using appropriate methods (statistical tools, coding techniques, qualitative analysis) to draw meaningful conclusions.

Problem-solving: Addressing complex research questions or problems that might lead to new insights, theories, or practical applications in the field.

Brief description of student responsibilities?

Conducting a Literature Review and engaging in interdisciplinary collaboration with faculty, researchers, or other students to enhance the scope and impact of the project.

URCA Assistant positions are designed to provide students with *research or creative activities* experience. As such, there should be measurable, appropriate outcome goals. What exactly should your student(s) have learned by the end of this experience?

Critical Thinking: Applying analytical skills to assess, evaluate, and synthesize information, leading to a deeper understanding of the research or creative process.

Technical Skills: Developing proficiency in tools, techniques, and methodologies relevant to the field, such as laboratory equipment, design software, or coding languages.

Time Management: Managing deadlines, project milestones, and balancing research or creative activities with other academic commitments.

<u>Requirements of Students</u>

If the position(s) require students to be available at certain times each week (as opposed to them being able to set their own hours) please indicate all required days and times:

The times and days are very flexible for both in-person and virtual meetings

If the location of the research/creative activities involves off campus work, must students provide their own transportation?

no need for transportation off campus

Must students have taken any prerequisite classes? Please list classes and preferred grades:

basic research and lit composition

Other requirements or notes to applicants:
